From the heart of **Europe**,

we create and impart new **knowledge**

to advance **business**

**and society.**

We develop **entrepreneurial**

**leaders** who think **globally**

and act **responsibly.**

# Welcome!

ESMT Berlin students, alumni and faculty leads share their perspectives.

“From day one, ESMT told us about the importance of networking. Starting with the orientation week, the school arranged and created lots of opportunities to help us get to know our classmates and alumni. This kind of subtle networking is important in helping students to create unlimited possibilities for career development.”

*Chaoyue Shen,  
MIM alumnus, Warner Bros. Discovery, Germany*

ESMT Berlin is a strong community, where everyone feels comfortable and safe in developing and sharing ideas, embracing each other as innovative leaders, and supporting each other in critical moments of growth – and all of this grounded in a sense of purpose, curiosity, and belonging.

*Anna Wannhoff,  
MIM alumna, Microsoft, Germany*

I went from having zero background in finance to joining a master’s program specializing in finance and investment and co-managing a €1 million fund for two years on the open market. Who would not want that experience, especially when you want to be a fund manager one day?

*Udayaraj Natarajan,  
MIM alumnus, Research Associate & PhD candidate at ESMT Berlin*

Guillermo Baquero  
Professor of Finance,  
**Faculty Lead of the Master  
in Global Management**

The present and future of business is global, and the program curriculum is designed to help you thrive in this reality by combining modern methods and theories with practice immersion - all with a global outlook. You come away with an understanding of how businesses shape the global economy and how managers and strategy consultants can contribute to making a positive impact, and you receive a practice-proof skill set and multiple options to customize your learning journey.

Angeliki Papachroni,  
Lecturer, **Faculty Lead of  
the Master in Innovation  
and Entrepreneurship**

The Master in Innovation and Entrepreneurship was developed because we see a lack of bespoke entrepreneurial education available for young graduates. Being based in Berlin, the entrepreneurial capital of Europe, we see ourselves in the best place to deliver a Master program that will help the next generation of entrepreneurs design, foster, and grow businesses that will change the world for good.

Prof. Catalina Stefanescu-  
Cuntze, **Faculty Lead of the  
Master in Analytics and  
Artificial Intelligence**

As well as a foundation in core business knowledge, the curriculum has been designed to take industry leading research and theory and combine that with real world application. You will solidify your skills of complex data analysis, build an understanding of contemporary AI challenges and dive into some of the latest AI and data management technologies. We then help you apply this knowledge through projects like the Analytics Consulting Project and the Portfolio Management Program.

# Which master is right for you?

  
**Format:**  
24 months,  
face-to-face,  
full-time

  
**Location:**  
Berlin  
+  
required global internship  
and social impact  
projects  
+  
optional exchange or  
double degree

  
**Language:**  
English

  
**Start date:**  
September

  
**Tuition:**  
32,000

  
**Global Management**

Preparing you to lead  
in the world of tomorrow

  
**Innovation and Entrepreneurship**

Start and disrupt  
business for good

  
**Analytics and Artificial Intelligence**

Develop and apply  
data-driven solutions  
to future challenges

In your second year, you can choose between **24 electives**, as well as courses from the first year of the other Master programs, no matter which program you enrolled in.

Offering multi-faceted learning & development opportunities for the next generation of global leaders - in business, politics and society.

### Your Profile

- You have **shown initiative** during your Bachelor studies or in your personal life.
- You are curious about other cultures and **embrace diversity** as a strength.
- You know that **sustainable business** holds the key to a better future.
- You are a true **team player** and prepared to develop yourself to become an **agent of positive change**.

## The Social Impact Project

This five-week Social Impact Project gives ESMT Berlin Master and Full-time MBA students the chance to provide economic or management consulting to an organization with a social mission. You will gain valuable experience in a real-world setting while helping to promote positive social change.

Find out more 

## Responsible Leaders Fellowship

Responsible Leaders Fellows are MBA or Master graduates from ESMT, equipped with the knowledge and skills to make a real and lasting difference in the world. With your premium education, you have the power to use business and management principles to address social challenges in developing countries. You will dedicate your time and talents to a pro-bono service, furthering your commitment to making a positive impact on the world. By taking on leadership roles in institutions that are on the frontlines of improving lives, you become a truly inspiring example of how business education can shape a brighter future.

Find out more 

## Global Immersion

Realize your full potential as a global business leader by taking advantage of the many opportunities ESMT offers. Expand your horizons by applying for internship opportunities at our corporate partners, or by taking an academic term abroad at one of our top-ranked international partners. You can also hone your language skills by learning German, French, Spanish, or Chinese at our partner GLS Sprachenzentrum Berlin. Unlock your greatness and become a global leader by taking advantage of these amazing opportunities!

Find out more 

## Finance Certificate

You have the opportunity to take your education to the next level with an amazing selection of advanced courses in Finance! Learn how to develop global investment strategies and gain valuable insights into the complexities of the financial world. Upon completion, you will receive an ESMT Certificate in Finance in addition to your Master Degree - the perfect way to launch your career in the exciting world of finance!

## Ideation Bootcamp

Joining forces with corporate leaders, startups, and non-governmental organizations, the Ideation Bootcamp is the ultimate opportunity to spot trends, technologies, and pressing issues our world is facing in the modern age. With the perfect blend of tech talent, you'll be able to develop the most innovative solutions to tackle these issues head-on. Get ready to be a part of the revolution that's set to change the world for the better!

[Find out more](#) >>>

## Summer Entrepreneurship Program

Are you an aspiring entrepreneur looking to make your mark on the world? Look no further than the SEP – the Summer Entrepreneurship Program! With the SEP, you'll have everything you need to bring your startup ideas to life. From mentorship, access to the ESMT and Vali Berlin networks, and a structured program of workshops by Berlin's startup pioneers, you'll get the guidance and resources you need to create success.

[Find out more](#) >>>

## PRACTICAL EXPERIENCE

### NEXT Acceleration Program

The NEXT Acceleration Program supports burgeoning ventures (born during the SEP) to reach the pinnacle across six compelling areas: product-market fit, human capital, fundraising, legal, administrative, and tax issues. You will have the chance to join and mentor startup founders by taking part in the Creative Destruction Lab (CDL), the pioneering CDL Lab in Germany.

[Find out more](#) >>>

### Creative Destruction Lab

Creative Destruction Lab Berlin is your chance to join the first CDL lab in Germany, an exclusive partner of ESMT Berlin, and become part of an innovative, game-changing experience. As part of the CDL practice experience, you will have the opportunity to provide valuable advice and guidance to startup founders while getting a real-world experience in the innovation and entrepreneurship space. Get ready to step up your game and make a real impact!

[Find out more](#) >>>

### Corporate Innovation Project

During the CIP, you have the unique experience of working on an innovation consulting project or developing venture ideas alongside a corporate partner. From brainstorming and problem-solving to designing and launching new products, you get to experience the full cycle of corporate innovation!

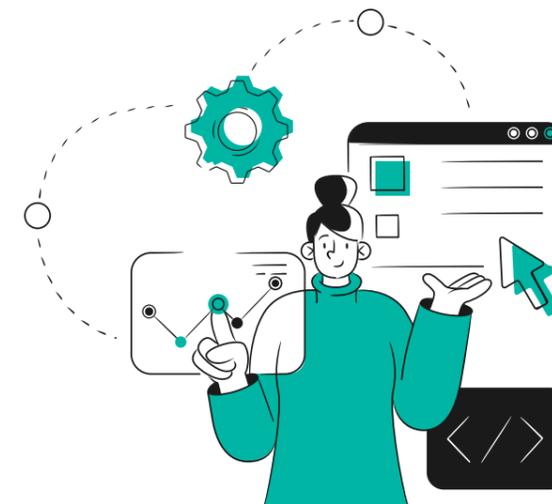

[Find out more](#) >>>

Merging business and computer science, creating an understanding of both the possibilities of tomorrow's technologies, and of their application in a business context.

### Your Profile

- You are seeking your first **practical experience with coding**.
- You have an intuitive understanding of how deeply **technology** permeates all aspects of modern life.
- You quickly grasp and adapt to new trends in **business analytics**.
- You are curious to master the complex flows of **data**, shaping them to create value for business and society.

# Admissions and Financing

**Application Deadlines**

**Early Decision\*:**  
March 31

**Student Visa Applicants\*\*:**  
June 1

**Final Deadline:**  
July 31

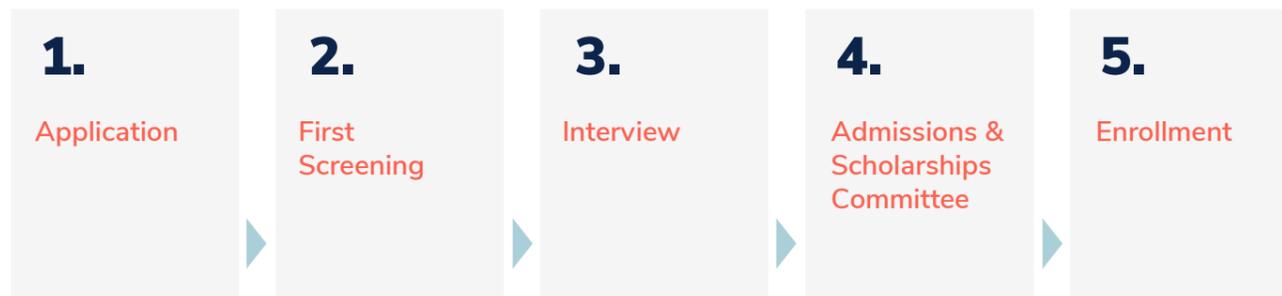

Applications are reviewed on a rolling, first-come basis. The Admissions Committee meets and publishes admissions decisions every two weeks.

\*Accepted candidates from this round will receive a €2,000 discount on tuition.

\*\*Due to long visa process times, citizens of countries that require a student visa to study in Germany are strongly advised to apply by this deadline.

**Start your application** 

## Application steps

## Requirements

- A **previous degree** (at least Bachelor's equivalent) with **excellent grades**. If you are finishing your undergraduate studies within the next year, your application will also be considered.
- Ideally **no more than 24 months of postgraduate work experience** (excl. internships).
- ESMT expects a score of **100 points in the TOEFL or 7.0 in the IELTS or 850 in the TOEIC**. You will receive a waiver for the English proficiency test if English is your native language or if you have completed a university degree completely taught in English.
- A **GMAT or GRE score is not generally required for admission**. However, the Admissions Office may require one of the tests for candidates lacking proof of strong quantitative abilities. MAAI applicants are encouraged to submit a GMAT or GRE.
- **Completed application** - including essays, one reference and €50 application fee.
- **Individual interview** in person or online.

Admission requirements are slightly different for each program. Please follow the link for a complete overview.

**Find out more** 

## Financing options

**12** Scholarship and loan funding options

**Tuition**  
**32,000** EURO

### Scholarships

ESMT offers partial tuition scholarships based on academic merit and diversity to support highly qualified candidates.

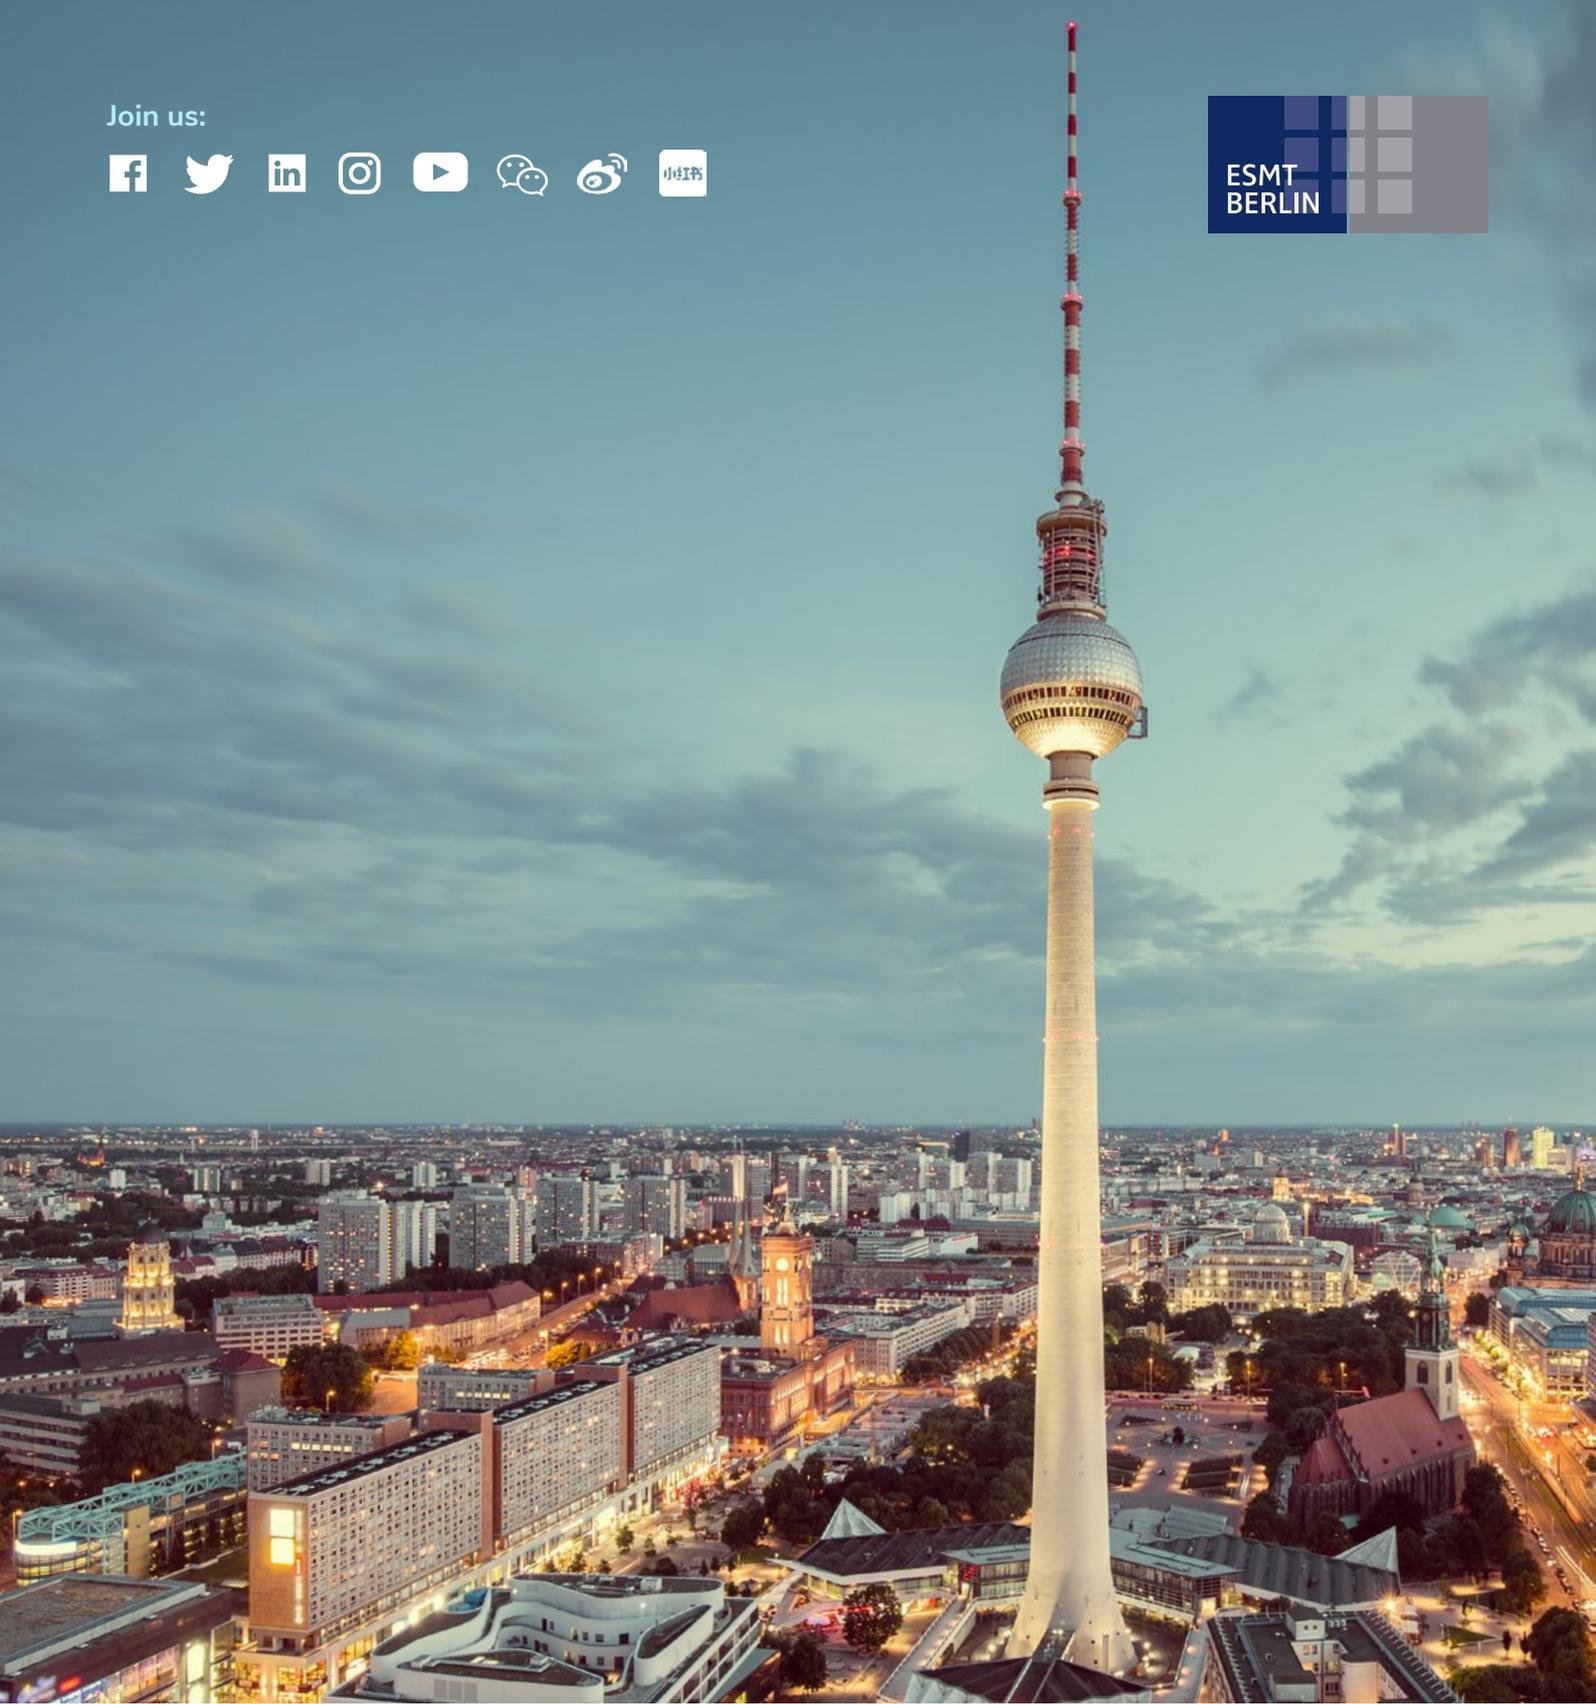

### Study Loans

An ESMT degree is an excellent investment into your future. Nevertheless, financing your studies is not always an easy endeavor. To cover the gap between potential scholarships and savings, and the cost of attendance, ESMT Berlin offers access to a number of loan programs.
